

User's Manual Magic Tap™ Model MT-200-xxx (Remote Control Touch-Dimmer)

1. Install as show below. For any lamp that uses incandescent or halogen bulb only. Be sure the lamp switch is turned ON. (This model is not for use with fluorescent lamps.)

2. Two ways to change lamp brightness:
 - a) Press remote control for about a second (range is approx 50'):
1st Press = Dim; 2nd = Medium; 3rd = High; 4th = Off
 - b) Tap of the fingers (near top center):
1st Tap = Dim; 2nd = Medium; 3rd = High; 4th = Off
3. Keychain remote control can also be wall mounted anywhere using a plastic holder (included).
4. Built-in night light may be set for "Normal" or "Low". Simply move the slide switch located on the bottom one way or the other.
5. It is normal for Magic Tap™ slightly warm to the touch during normal operation. Do not use Magic Tap™ with another dimmer in the same circuit. **Do not use near water!**
6. If you intend to add a second MT-200 xxx in your home, be sure you select a unit with a different **Channel** (A, B, or C) in order to avoid interference. Each remote is matched to a Magic Tap™.
